Pupil Acceptable Use Agreement (FS/KS1) Policy

This is how we stay safe when we use computers:

- We only use the internet when an adult is with us

- We can click on the buttons or links when we know what they do

- We can search the internet with an adult
- We can send and open messages together
- We can write polite and friendly messages to people we know

Parents and Carers

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users.
